

CHANGES FOR 2024-2025

- All manuals and workbooks have been updated to the 2023 NEC®. All valid errata has been repaired.
- Fourth Year, First Semester received a major update. New content has been added including PLR, VFD, solar photovoltaic, low voltage/limited energy, EV charging, supervision, and building automation systems.
- Fourth Year, Second Semester remains focused on NEC review but now uses *Electrical Systems* instead of *A Comprehensive Guide to the 2023 NEC®*.

APPRENTICESHIP & CURRICULUM:

Below is the current pricing for the 2024-2025 school year:

ELECTRICAL APPRENTICESHIP

(Includes textbooks, student materials, and CMS access for each student)

First Year Student Kit: \$352.27

Second Year Student Kit: \$352.12

Third Year Student Kit: \$383.03

Fourth Year Student Kit: \$318.67

INSTRUCTOR BUNDLES

Instructor Bundles for all years: \$215.00

IEC will once again provide at least one set of complimentary instructor bundles per year (four total). Chapters are eligible for one additional instructor bundle per every 20 apprentice kits purchased the previous school year. IEC will fulfill your request for which year based upon the results of the survey each Executive Director completed.

*If you are unsure how many free instructor bundles your chapter is eligible for or if you want to amend which year instructor bundle you would like to receive, please contact **Chrissy Skudera** at cskudera@IECI.org.

CONTENT MANAGEMENT SYSTEM (CMS) AND GRADUATION CERTIFICATES

The online CMS will be available for all four years and is included with each apprentice kit. To enroll your CMS classes, please **download this form**, complete, and email back to **Chrissy Skudera**.

If you require graduation certificates, please visit canva.com within the Executive Director folder to access the IEC-approved graduation certificate or **download this form** and email it to **Chrissy Skudera**.

NEC® CODE BOOKS

2023 Code Books will be offered at \$123.00 for those who choose to order through ATP.

SUPPLEMENTAL TEXTBOOKS

CENGAGE

As you know, we use two textbooks from Cengage Learning alongside our curriculum - *Electrical Wiring Residential 21E* (Softcover) and *Grounding and Bonding 7E*.

They each come with Cengage's Instructor Companion website with answer keys and additional information which Cengage will continue to offer to our instructors free of charge.

Cengage's MindTap for the CMS will now require a licensing fee this upcoming year.

For more information on other instructor resources and setting up the MindTap, please contact **Thomas Parsons** of Cengage at thomas.parsons@cengage.com or (856) 296-7005 for help in obtaining these other materials.

ATP

Please contact ATP customer service directly at (866) 216-2002 to request additional instructor resources or answer keys for *Electrical Systems* and *Electrical Motor Controls* textbooks.

OTHER TRAINING RESOURCES

EXAMVIEW

The ExamView version that is currently being offered by Turning Technologies is v.11. The order form to order downloadable licenses for ExamView, which are still at \$199.00 each, is attached to this email. As you know, ExamView software must be loaded on your instructor's laptops in order to be able to open the test banks.

ONLINE BOOKSTORE AND BOOK ORDERING

The turnover date for 2024-2025 materials to be added to the online bookstore and for old material to be removed from the store is the last day of May. The bookstore will be open to receive 2024-2025 curriculum orders on June 3, 2024.

The Online IEC Bookstore, hosted by ATP, is a secure website that is password protected. The below passwords allow various levels of access based on position.

If you have any questions regarding how these codes should be distributed, please contact **Chrissy Skudera**.

IMPORTANT PASSWORDS

There are seven groups that are assigned passwords (Apprentices in First, Second, Third, and Fourth Year; Executive and Training Directors; ESTS; and Contractors). Of these seven groups only the four Apprentice passwords change annually.

Changing the apprentice group passwords will prevent an apprentice who moves on to the next year from being able to access the site with their “old” password. This should eliminate the possibility that an apprentice would access the incorrect year when going to purchase their next year’s material.

www.iectraining.com

These codes will all become active on at the beginning of the new school year when orders can start being taken.

There are three basic ways to access the site:

A. Students ordering their own books

First Year Apprentices - students given this access code will only be able to view and order first-year student curriculum kits, related instructional material, and blueprints.

FIRST YEAR Apprentices’ Password: IEC132124

Second Year Apprentices - students given this access code will only be able to view and order second-year student curriculum kits, related instructional material, and blueprints.

SECOND YEAR Apprentices’ Password: IEC202440

Third Year Apprentices - students given this access code will only be able to view and order third-year student curriculum kits, related instructional material, and blueprints.

THIRD YEAR Apprentices’ Password: IEC334687

Fourth Year Apprentices - students given this access code will only be able to view and order fourth-year student curriculum kits, related instructional material, and blueprints.

FOURTH YEAR Apprentices’ Password: IEC414230

Students ordering their own books for ESTS courses being offered at chapter as continuing education. Students given this access code will only see ESTS courses and no other apprenticeship curriculum kits.

ESTS Password: IECE53494

B. Chapter Executive Director or Training Director. This access code will allow Executive Directors and TDs to see all student and instructor bundles, all related instructional materials for all years, blueprints, and Electrical & Systems Training Series (ESTS) courses - both student manuals and instructor manuals.

EXECUTIVE AND TRAINING DIRECTORS’ Password: IECD93467

C. For chapters who have contractor members order books directly. Contractors given this access code will see all four years of student curriculum kits but no instructor bundles. (This access code will only be used by certain chapters.)

CONTRACTORS’ Password: IECC73022
